2017

Answer: A towel

## Marley's Transport Staff Christmas Party 2017

Saturday, 21st October 2017 from 12pm to 6pm

(37 Armstrong Rd, Hope Valley)

- *This year come along and enjoy some "Paella" which is the traditional dish of Spain.*
- *Drinks / Jukebox / Entertainment / Face Painting / Giant Jenga / Giant Connect 4*

*Come along with your family & enjoy a relaxing afternoon with your work colleague's.*

**IMPORTANT NOTICE:** Please remember to organise a designated driver, we do not want anyone to Drink & Drive. Drink responsibly & have a great time!

## MARLEYS REMINDERS

**Speed limit in Marley's yard is 10km/h. Please ensure you DO NOT speed in the yard!**

**HEAVY VEHICLE SPEED ZONES—Greenmount & Bedfordale Hills** All Marley's vehicles MUST abide by the 40km/h speed limit, EVEN when EMPTY!!!!

Exert from Main Roads "The speed limit within a "heavy vehicle speed zone" applies to all heavy vehicles with a GCM rating of 22.5 tonnes or more. This applies regardless of whether the vehicle is towing a trailer or carrying a load".

**TAKE CARE** Can all drivers please take care when shunting loads so as not to load up the drive line.

**INGHAM'S** Thanks everyone for complying with Inghams instructions and paperwork requirements as per previous newsletters.

**THANK YOU to staff members who are already complying with the above requirements & reminders!**

Got a photo, appropriate jokes and puzzles, or something else to add to Marley's Mail, please contact Marcus:

- ⇒ Birthdays
- ⇒ New Trucks
- ⇒ Summer Reminder
- ⇒ MT Data Tracking

**We pride ourselves on providing a reliable and efficient transport service to our customers.**

Photo by: Russell Marley

Marley's put another new rig on the road this month. This new auger trailer is the highest capacity ever built by Walinga with a payload of 64 tonnes. In most other aspects it is the same as our previous auger trailers with the 6 compartments in the rear trailer discharging through the floor, feeding into the back of the lead trailer, through the floor of the lead trailer and then up the main boom auger. It can all be operated by remote control with onboard ECM with soft start and pressure compensating hydraulics to ensure optimum discharge rates of around 1.5 - 2 tonnes per minute.

### MT Data Tracking System

First thing Monday morning remember to check your tablet to ensure that the battery has not gone flat, the power button is on the top left hand corner of the tablet.

Please ensure that you login and logout for each shift.

I know we have had a rough time during the introduction with this system (as to be expected with new systems) and we are working very closely with MTD to try to fix fatigue break issues, phone issues and way-point speeding. We appreciate your patience during this time.

Important: Please remember not to use tablet while driving.

As the warmer weather approaches please remember to ensure you take enough cool drinking water to keep yourself hydrated. If spending time outside its also a good idea to put on a hat and some sunscreen.

What gets wetter and wetter the more it dries?

Brain Teasers

You have three stoves:  
a gas stove, a wood stove  
and a coal stove  
but only one match.  
Which should you light first?

How Many Holes Are In This Shirt?

Answer: 8

WORK!

DUE TO THE CURRENT WORKLOAD, THE LIGHT AT THE END OF THE TUNNEL HAS BEEN SWITCHED OFF
