Public Holiday – Queens Birthday – 24th September

Queen Elizabeth was born April 21st 1926 (92 years of age), she is the head of state of many countries and territories, including Great Britain, Northern Ireland, Canada, New Zealand and Australia. The monarch's birthday was first celebrated in Australia in 1788, at that stage King George and Governor Arthur Phillip declared it a holiday to mark his birthday. *It makes you think about how many more she will celebrate as our Queen.*

The temperature of the soil and air begin to warm up as well as the daylight hours begin to increase with the coming of spring. The season is often associated with rebirth renewal and regrowth.
