

Marley's Mail – February 23

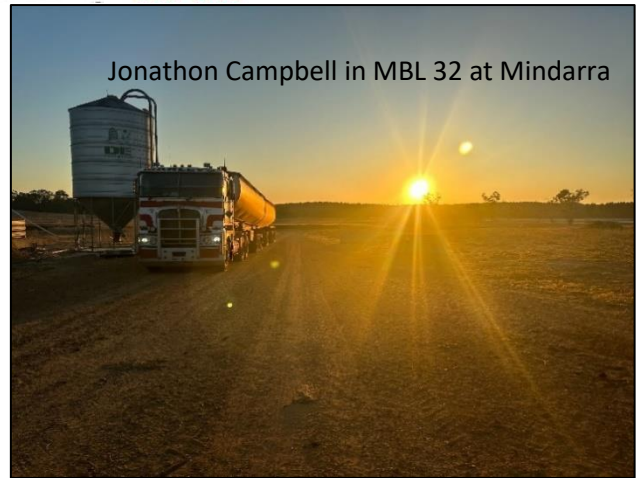

What's gone wrong:

A Marley's sub-contractor was driving at 98-99km/h when he looked down for a few seconds to get a bottle of water. The truck hit the gravel shoulder of road causing the driver to over correct and lose control of truck and trailers. As a result, damage was caused to the lead trailer. Luckily the trailers were unloaded! **If you need to grab something in the cabin of the truck such as a bottle of water, best practice is to stop and pull over when safe to do so. Taking your eyes off the road is extremely dangerous and can result in serious injury or death.**

A Marley's driver was driving on Kwinana Freeway in the right lane during morning traffic. The driver was watching the left lane and drove slowly in the right lane whilst waiting for a gap to move in the left-hand lane. The driver didn't see that the car in right lane had come to a stop, resulting in the driver taking evasive action to avoid hitting the car. Unfortunately, the driver hit the rear left bumper/quarter panel of car causing damage. **Please remain vigilant on the roads, especially during busy periods when cars stop and start. Continually scan both lanes of traffic to detect drop in speed of other drivers.**

A Marley's driver stepped down from his truck using the steps and accidentally sprained his ankle on uneven ground. **Please be mindful to have 3 points of contact when entering and exiting the truck. Be mindful of where your feet are going and ensure you step down onto a flat area to avoid ankle injuries.**

Reminder's:

Timesheets:

Please be reminded that it is a requirement to hand in your timesheets daily. Please have your timesheets in from the previous week by Tuesday morning by the very latest.

Please ensure you always sign your time sheet and write the final hours in the bottom right box.

Please make sure you log IN and OUT every shift on your tablet. We're noticing a trend of driver's leaving themselves logged in.

Thank you!
