## INSIDE THIS

### ISSUE:

Training	1
Wash Pad	1
SBM Boat	1
AQIS Audit	1
Sleep Risk	2
Crossword	2

Got something you would like to add... please contact Marcus in the office on (08) 9453 8000 and we can add it in for you.

**Training** - Some of Marleys drivers are currently in the process of undertaking a Cert III in Transport and Distribution Road Transport course which at the end of it will give them a nationally recognized qualification. This course has been a bit slow getting going due to the administration paperwork involved but is now starting to run smoothly. Our trainer Ralph is here every month and hunts down the drivers (wherever they are) to spend some time with them to complete the required units. If you are interested in starting the course please contact Marcus.

**Wash Pad** - Recently people should have noticed that we upgraded the wash pad at the Noble St yard. It has been turned around to match the flow of traffic and has a different drainage system. Drivers are encouraged to use this to clean out but please wash the pad down after use and coil up the hose.

**The heaviest thing you can carry is a grudge..**

*The first product to have a barcode was*

*Wrigley's gum*

Thank you to all of the drivers and staff involved in this months soya boat. An unprecedented tones per hour was achieved peaking at 340. This shaved 12 hours of the estimated completion time. It is great to see everyone team up and help each other to achieve such a great result.

One thing you can give and still keep...is your word

AQIS surprise audit—AQIS conducted a surprise audit at the end of June to check compliance with procedures. I'm pleased to say that we passed with flying colours thanks to Bill's immaculate paperwork records and the condition the store is kept in even while Bill is away. Well done guys.

Next month, from the 18<sup>th</sup> July, Marley's Transport will be investing in a program that will involve the whole company to confirm its commitment to safety.

Marley's has partnered with SleepRisk Solutions, an independent support service, to help you confidentially discover and treat any medical reasons for driving tiredness. The service is entirely confidential and information will only be shared with Marley's at your request. This service has shown to provide benefits like greater alertness, vitality and capacity for concentration; increased internal health, sexual function and family life are all positively affected as well. By participating you will help Marley's to be a safer more responsible company. So far evidence has shown massive reductions in road accidents and outstanding safety improvement with companies who have followed the system.

Individual education sessions will be scheduled for each employee with SleepRisk Solutions for approximately 30 minutes. Similar to a medical, the session will be a mixture of education, questionnaire and simple testing. Each person will also be given a basic sleep recording device to take home and sleep with for a few hours that night. It is entirely painless and the results will help you to analyse what makes you tired and how you can clearly improve it in a very rapid manner.

This positive program is funded by Marley's and will be performed in a completely non discriminate and confidential way with all staff.

If you have any further questions regarding the service please contact Marcus Watson or program manager, SleepRisk Solutions, Nathen Dainney 1300 913181
