50  
MARLEY'S TRANSPORT  
YEAR

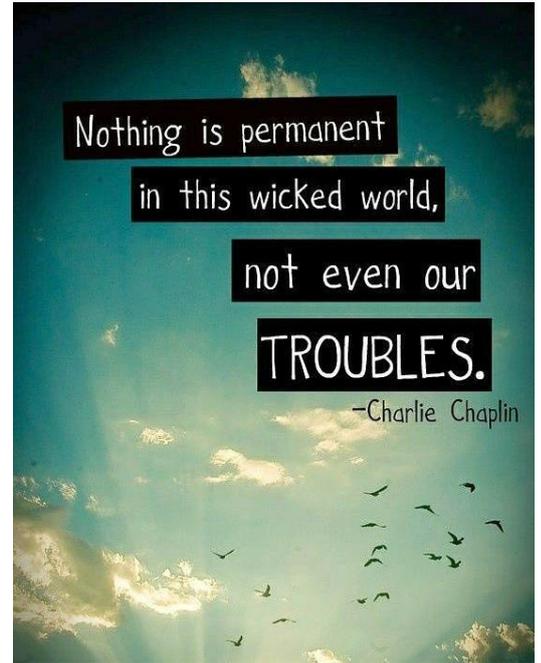

ANNIVERSARY  
EST. 1969

## Marley's Reminders:

**Drivers Licences** – Due to the nature of our contracted requirements and systems for our customers, we are now requesting that **all pending** drivers' licence renewals are supplied to HR not later than one week before expiry.

If you have paid it and have a receipt of payment you can supply us this until your actual card arrives in the mail. We are then able to upload your receipt into our contractor systems to support your approval to attend their site.

**Incidents** - All incidents no matter how big or small are to be **reported** as soon as possible to Operations or Maintenance. Failure to do this could result in further damages to infrastructure or expose someone or something to a hazardous situation.

Nothing is permanent

in this wicked world,

not even our

**TROUBLES.**

-Charlie Chaplin

1. What Australian state is believed to have the oldest evidence of life on Earth – the Stromatolites?

2. How many pink lakes does Western Australia have?

Answers: 1. Western Australia, 2. Esaperance – Pink Lake & Lake Hillier (Middle Island) and Hutt Lonn at Port Geoprey

Welcome new members to the Marley's team

Daniel Chester – Driver

Heath Neilson – Driver

Back in the day, the only panic buying we did was when the bartender called 'last orders'

alerty acid

MBL 46 – Graeme - Jig Grazing Waroona

Sending Many Happy Returns to our team celebrating their birthday's this month.

Happy Birthday

Cliff Ngataki – 3<sup>rd</sup> May

Tristan Carey – 3<sup>rd</sup> May

Chris Rankin – 4<sup>th</sup> May

Chris Oostdam – 11<sup>th</sup> May

John Lord – 12<sup>th</sup> May

Christine Old – 20<sup>th</sup> May

Bruce Stephens – 21<sup>st</sup> May

Ricky Holland – 31<sup>st</sup> May

We pride ourselves on providing a reliable and efficient transport service to our customers

## Oops – what's gone wrong?

**Parking** – In the last month we have had a number of incidents where not enough clearance has been initially identified. This lack of perception of space has resulted in damages sustained to tarp handles, tarps as well as scrapes and dents to trailing equipment. **PLEASE** (a) Don't park in a location that restricts others the ability to pass safely. (b) If you park in a parking bay or line up, ensure that on entry you have the required clearance – if you are unsure request a **SPOTTER** to assist you. One simple call could save a lot of time, grief and money. (c) Once parked, check that your whole combination is in the middle of the bay.

**Loss of Equipment** – Two tyres in the last month separated from the trailing equipment during movement. It was identified that a small process was missed in the workshop which could have resulted in a serious risk to fellow road users. **Never fear** – we have undertaken a review and can confirm that all steps are now being undertaken as per Marley's expectations.

**Equipment damages** – We had a couple of incidents this month where it was identified that driver's did not perform their daily checks after returning from leave or before commencing their shift for the day. Drivers please ensure your equipment is operating safely and also that YOU are safe by; Completing your daily checklists **before you use it for the first time** for that day; also if you **change vehicles**. The checklist is located on the back page of your daily timecard book – by signing your daily signature you are acknowledging that you have completed the required daily checks on all your equipment.

**Camera Footage** – We have had a couple of reports from members of the public in recent times and just wanted to share with you that by having these cameras applied to the outside of our equipment has proven to be beneficial to us. **How?** Having these cameras installed has given us the opportunity to review and identify in real time the actually occurred – not just the “*he said, she said*” scenario.

As the saying goes – “**Proof is in the pudding**” – We are happy to say, most of these reported events have resulted in us being able to identify and prove that our drivers were operating safely on the roads. **Winning the battle team – Keep driving safely – Power of Technology.**
