Hope you had the opportunity to watch the solar eclipse on the 20th of April and have something nice planned for Mother's Day on May 14.

How does the moon cut his hair? Eclipse it.

What's gone wrong:

A Marley's Sub-Contractor drove around a corner on Kwinana Beach Road, resulting in the lead trailer tipping over and losing a full load. Luckily there were only minor injuries. **Please be reminded to drive to the designated speed limit and road conditions. When approaching corners, consider the weight you have on board, the angle of your truck into the corner and the speed. (Below diagram gives example of how force increases as your speed increases, resulting in roll over)**

A Marley's Sub-Contractor drove into grain intake tunnel 1 at Wesfeeds, Hope Valley and tipped off his lead trailer. The driver drove to allow room to empty his dog trailer and didn't fully lower his lead trailer resulting in the lead trailer hitting the roof panels. **Please lower your trailers completely before driving forward to avoid hitting something. There is a traffic light in grid to indicate when safe to move forward.**

A Marley's driver turned a corner, and his trailer clipped the guard rail causing some damage to the trailer. **Please ensure you enter the corner at the correct angle and speed to avoid your trailer hitting something. Slow down on approach to corners and watch carefully that your trailers will clear.**

Reminder's:

We're noticing a few issues with drivers logging their breaks on the tablet due to technical issues. If you encounter any issues with your tablet, please report to Tye on 9410 4621 as soon as possible.

Wesfeeds – Hope Valley

Wesfeeds is finally operational! As expected, there are some teething issues, and we would appreciate your feedback to ensure continual improvement of processes and safety.

If you're loading or unloading at Wesfeeds Hope Valley (across from Marley's Transport), please consider the following:

- 1) Ensure you enter via the correct gate on Investigator Drive - Gate 3: Feed, Gate 1: Raws/Grain.
- 2) **LEFT TURN ONLY** when exiting the site onto Armstrong Road. If you're returning to Marley's Transport to use weighbridge, turn left at Investigator Drive, left at McLaren Avenue, left onto Armstrong Road, and enter via gate 1. (Maps held in weighbridge to assist).
- 3) When loading, ensure your load is not heaped so the tarp can be applied.
- 4) Please report any issues to Marley's Transport.

We pride ourselves on providing a reliable and efficient transport service to our customers
