MARLEY'S TRANSPORT
YEAR

ANNIVERSARY
EST. 1969

Progress of our new site – Tilt panels being poured and limestone wall under construction - exciting

Marley's Notification

CBH New Safety Requirements - This is a friendly reminder to advise you all as of the **1st September** if you are visiting MGC or Kwinana Grain Facility you **WILL** be required to wear:

- A hard hat when external of the cab
- Gloves – worn when working or carried on persons or in immediate proximity
- Long sleeve shirt and long pants or overalls
- Safety Glasses

Please call Sharyn if you do not have any of the above as soon as possible.

MILNE AgriGroup - Drivers, we have been alerted that not all persons are complying with the traffic management requirements at Milnes. If there is a posted STOP sign please ensure you stop as advised.

If there is a requirement to only travel at 10 KMH on site ensure this is complied with. We thank you for your co-operation.

Sending Birthday Wishes

Jason B – 12th September

Grayam Bell – 21st

Hayden Spargo – 24th

Damien Bryden – 26th

Happy Birthday Team

Marley's Transport / West Coast Eagles

Kim's road trip across three borders – Aug 2020

Thanks to the team at Marley's Transport for trucking our equipment to the other side of the country!

See you in Queensland!

Ooops – What's gone wrong?

Injury – A roll tarp handle was dislodged from its holder when release of the half lock was undertaken. The driver was standing on the driver's side of the A frame, leaned over with the tool and flicked the half lock on the passenger side. As the driver did this it contacted the roll tarp handle causing a release of stored energy. The driver ducked down but the handle struck him on the forehead causing a laceration. Please ensure at all times that you are standing on the same side of the half lock that you are releasing – this way you will be out of the line of fire.

Property Damage – A driver was rounding a corner in a town site and sighted a fast moving light vehicle coming towards him. He turned the prime mover in a tighter circle to avoid the approaching vehicle, but in doing so, did not have sufficient clearance for the following trailer. As the trailer came around the corner it contacted a high voltage power pole located on the verge, which blew out the tyre and damages were sustained to the rim. This incident is ongoing with major repairs to be undertaken to the power pole. If in doubt when rounding a corner– STOP and allow the vehicle to go around you, then you may proceed safely.

A trailer was left elevated and was driven around a site causing damage to the roof structure of that facility. Always lower your trailer before you move around any site, failure to adhere to this request may result in disciplinary action being undertaken.

A lack of following a three level checking procedure (manual check sheet, electronic recording and application of an isolation tag) resulted in a worker not filling the prime mover with oil during an A service. Reinforcement of the process is being undertaken with the workshop team on the importance of this requirement.

Wash hands regularly for at least 20s, using soap and water or alcohol-based gel

Cover mouth and nose when coughing or sneezing using a tissue or flexed elbow

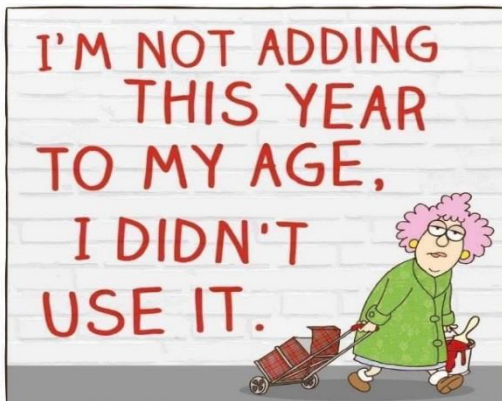

Stay home if you are sick or don't go to work or school if you have symptoms

Avoid shaking hands or making other unnecessary physical contact with others

Avoid close contact with others keep 1.5 metres away
