MT Data Requirements: Drivers it is requested to ensure that you are accurately recording the "assets" (trailing equipment) each time you log in to MT Data. If you change trailers please remove them from your asset list and add the new trailers. We do use this information and it's important that it's accurate.

Parking of Trucks - end of day requirements - Hope Valley:

It is requested that at the end of day **before** parking your truck and trailers is completed: Use allocated space in the line as your first option; if no spaces available contact Bill via (channel 19) or the office **before** approaching the shed location's. If all shed doors are closed and operations are not being undertaken then parking in front of the sheds is approved.

Grouchy Granny Writes: THANK YOU for all drivers keeping their paperwork together, please keep up the good work and continue to do so. Make sure you hand in all delivery dockets especially the Ingham's (they are little and easily lost)

Incident Reporting: It is imperative that all incidents or near misses are reported as soon as possible, even if you feel it's very minor. A Basic incident report can be completed a number of ways: MT Data Tablet or manually completing an Accident/Incident Report, this ensures that we have a record of the event.

Labour Day 5th March Western Australia

Celebrates organised labour

Originally called "EIGHT HOUR DAY" (8 hrs work, 8 hrs rest and 8 hrs recreation), changed in 1948 to a 5 day work week. Originally the expectation was to work 10-12hrs a day, 6 days a week.

Union building sites display 888, this is and was to reflect the eight hour day by British socialist Robert Owen. Henry Lawson wrote a Poem "Freedom of the Wallaby" to mark Labour Day demonstration in Queensland in 1891.

Hot Cross Buns – why do they have a cross on them?

- Anglo-Saxons believe that the cross is the symbol of the four quarters of the moon.
- English folklore believe that hot cross buns would help an ill person get better.
