

Marley's Mail – August 2024

55

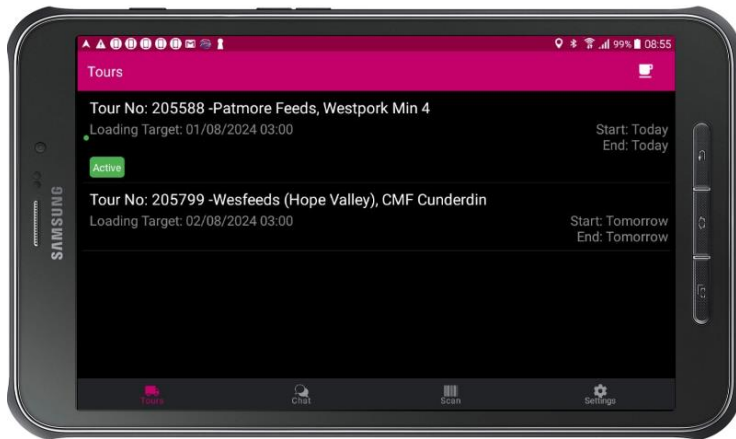

ANNIVERSARY

EST. 1969

InTouch

InTouch is an app on your tablet that provides all of the information for the jobs that have been scheduled to you.

It provides scheduled loading times, job numbers, booking numbers, contact names/numbers and details about the products you are picking up/delivering include weights and silo information if applicable and also a link to Marley's turn by turn navigation.

It will ask you to enter certain information when completing the job such as docket numbers and weights and you can even take a photo of your dockets. All of this information comes directly back into our system automatically.

We are working on collecting more information such as site contacts, gate codes and farm maps to provide you with as much information as possible.

When updating the status of your job on the tablet such as "Finished Loading" we can also start to look at sending notifications to farmers to provide them with your ETA so they know to expect you.

If you aren't yet using Carlo and/or require assistance please contact Marcus or Tye.

Happy Birthday

- Phil Jackson – 2nd
- Owen McAleese – 3rd
- Troy Walker – 8th
- Jason Greasley – 13th
- Bill Kealley – 14th
- Jimmy Singh – 24th

ANNIVERSARY

EST. 1969

Skin Checks – it's as easy as ABC...

How to: Check all spots on your body, from moles to freckles to age spots. Skin cancer can develop anywhere on the skin and is one of the few cancers that you can usually see.

Get into the habit of checking your skin - Ask someone for help when checking your skin, especially in hard to see places. Don't forget to check the soles of your feet and under your nail beds and scalp. Skin cancers rarely hurt and are much more frequently seen than felt.

Skin cancer warning signs: **ABCDE**

Asymmetry – One part of the mole or birthmark doesn't match the other.

Border – The edges are irregular, ragged, notched or blurred.

Colour – The colour is not the same all over and may include shades of brown or black, sometimes with patches of pink, red, white or blue.

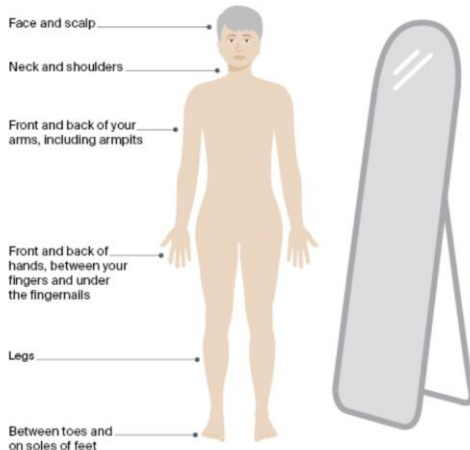

Diameter – The spot is larger than ¼ inch across – some melanomas can sometimes be smaller than this.

Elevation – The mole is changing in size, shape or colour.

Firm – Run your finger over your mole and feel for firmness.

Growing – Regularly take photos of your mole to check for signs of growth and change.

How to check your skin

Reminders

Merging: Please be reminded to stay in your lane until the lane has fully merged and to ensure you have checked your blind spots before merging.

Road Conditions: Please ensure that you adhere to the correct road conditions, especially in the wet weather that we have been having recently. Ensure that you have your lights on and make sure there is plenty of room between you and the vehicle in front.

Special Thanks

Ash Treasure – Celebrating 2 years on the 9th of August.

Hope Jacob – Celebrating 2 years on the 9th of August.

Salli Hodgetts – Celebrating 4 years on the 17th of August.

Ricky Holland – Celebrating 15 years on the 16th of August.

CJ Elliott – Celebrating 17 years on the 26th of August.

We thank you for your commitment and dedication to the Marley team over the years!
