

Marley's Mail – July 2023

EST. 1969

Fun Facts for July:

The month of July is named after Roman leader Julius Caesar. Before the name change, July was known as Quintilis. Quintilis, the Latin word for five, was the fifth month on the Gregorian calendar.

July is the coldest month of the year. The temperature at Vostok Station in Antarctica saw an extreme temperature of -89.6°C.

Joke of the month (according to Jesse).

What's Gone Wrong?

Recently, we experienced two close calls involving drivers from Marley's. In both instances, our drivers were overtaken by a truck on double white lines while navigating a corner or going uphill, posing a significant potential danger. We promptly reported these incidents to the police.

However, we would like to take this opportunity to remind all drivers to remain vigilant of their surroundings. If you happen to notice a truck attempting to speed past in the merge lane without sufficient space, it is crucial to employ defensive driving techniques to ensure your own safety as well as that of the other driver. One effective approach is to decelerate and provide ample room for the driver to pass safely. By taking these precautions, you can greatly reduce the likelihood of a severe incident occurring.

There have been disputes between drivers and staff at different sites. At MGC, staff requested a driver to clean their trailer before loading to prevent cross contamination. Another incident involved sub-contractors disputing delays on site.

Remember to clean trailers before loading, especially at MGC, to avoid cross contamination. Resolve disputes respectfully and report incidents to management.
