Oops – what has gone wrong?

Property Damages – Loss of load: 2 sub-contractors in the last month have sustained roll overs of their dog trailers during movement of grain. Both trailers sustained damages and were deemed unroadworthy from the event. The identified causal factors in these separate events were distraction and road conditions, however other factors were identified but not able to be confirmed or discounted as the trucks were not fitted with GPS tracking units and or cameras units. The drivers were lucky as they were not physically injured from the roll overs, the owners however have lost operating equipment that in these times are not able to be replaced.

Traffic infringements: One driver travelling in the metro area was captured moving through a set of red traffic signals, the vehicle was snapped via photographic evidence and the driver sustained a fine and a loss of 3 demerit points. Ouch. As part of our safety system, we undertake demerit point checks on a weekly and monthly basis to ensure that our drivers have a valid licence to operate our vehicles.

Property Damage: A truck driver was at an external site and moved his truck without lowering his trailing equipment. This unfortunately made contact during movement with an overhead structure causing some damages. Drivers need to ensure they are focused on their tasks before undertaking any movement of the vehicles and are not distracted by other persons.

REMINDER: Western Australia Day on Monday 7th of June.

Remember to be careful on the road as it is double demerits from Friday 4th of June to Monday 7th of June inclusive.

Do Not Disturb – Touching your phone whilst driving is now illegal in Western Australia. To turn off the temptations whilst driving; Do Not Disturb can be used. To use on Apple products, go to Settings, then Control Centre, then go to more controls and tap add next to Do Not Disturb While Driving. The things to expect when this is turned on is that your iPhone will stay silent, and the screen will stay dark. The only notifications that will be received are emergency alerts, timers and alarms. The only calls you can receive are from your Favourites or if your phone is connected to your car's Bluetooth.
